Glimpses of MMC

From the Principal's Desk

A teacher has a very specific privilege, the opportunity to touch the future. Not only can they touch the future, they can alter its course, affect its design and shape its matrix. Better the teacher, better the world to come. It has been our constant endeavour to equip these warriors of tomorrow with the right weapons. Mental Maths competition is a small initiative in that direction. Calculation has been the backbone in the development of civilisations. From the basic ideas of Phi and Decimals, to the complex calculations of planetary revolution and space travel, the calculative minds have been at the forefront, paving the path of enlightenment.

Through Mental Maths competition we invite all teachers, educators and parents to come forward and share our zeal and vision for a better a future, a better world.
